

After Russian Nuclear Submarine Found Off NYC - U.S. Launched FIVE E-6 "Doomsday" Planes!!!

HAL TURNER WORLD AUGUST 29, 2026 HITS: 18034

A little after 6:00 PM eastern US time on Friday Evening, I reported that an Unidentified Submarine had been detected in the Atlantic Ocean about 75 Miles off the New Jersey/New York City coastline (Story Here).

What I didn't realize as I reported multiple P-8 Submarine hunters flying search patterns looking for the Sub, elsewhere in the continental US, FIVE.... count 'em FIVE E-6 "Doomsday" Aircraft were scrambled!!!!

"DOOMSDAY" PLANES

The Boeing E-6B Mercury is a specialized U.S. Navy aircraft designed to maintain emergency communication and control of nuclear forces if ground infrastructure is destroyed.

People call it a "doomsday plane" because it is built to survive a nuclear war or a total breakdown of normal military networks.

HAL TURNER SNAP ANALYSIS

Clearly, the presence of an unidentified submarine off the Coast of New York City was a very unwelcome surprise for the federal government.

In the hours since the incident occurred, I found out (and reported to my radio audience) that it had been a Russian submarine, which surfaced on purpose, to be detected. I suspected the Sub was the Russian Government "sending a message" to the US Government.

That sub then submerged and disappeared.

I am told, but do not know for certain, that the P-8 Sub-Hunters were NOT able to locate any submarine.

So let me ask YOU.... what does it tell YOU that a Russian Submarine popped up off the coast of New York City and immediately, the United States scrambled FIVE (5) E-6 Doomsday Planes?

It tells me this is how dangerously close we are, to actual nuclear war!!!

Relations between the US and Russia have been smashed so terribly, and our conduct against Russia has been so deliberately aggressive, with both military aid to Ukraine and financial assault of Russia by US Sanctions, that the US response to detection of a Russian Submarine was to launch five E-6 Doomsday planes.

That's what it tells me. It tells me the US is EXPECTING to be attacked.

Notice that none of the so-called "main-stream" media is reporting any of this?
